Solving the problem using divide and
Conquer

-3	9	-1	5	-2

(), [], []

{ [], [] }
~~1st (5)~~
1st (3,2)

->	2	-1

5	-4

3,2

-2

5

-4

. 90

3

2

if combined ↑   left ↑   right ↑
return, ~~5~~,3,2   3,   2,
    [[3],[2]]   [3]   [2]
          ⇕
    Infinal result
    J have to return
    list, So all base
        Case also I
        have to return list.
